

**Repair | Restore | Renew**  
Hard surface repairs

**DON'T REPLACE IT! RESTORE IT!**

# *BROCHURE*

 **THE  
SOLUTION**

The Solution is proud to be amongst the best in the region providing restoration and repair services that are second to none.

Our technicians are trained to deliver incredible repairs to aluminum, wood, stone, marble, uPVC, veneers, laminates, granite, ceramic tiles, stainless steel and even glass.

Scratches, dents, cracks, stains and scuff marks, even just fatigued surfaces, can be made good or rejuvenated by our fully trained, uniformed technicians.

We can even resurface items in a different colour to the original, giving a fresh new look to dated paint schemes

# Market sectors

The Solution serves several market sectors. The range of hard surface damage repair services provided can offer substantial savings of up to 80% when compared to the cost of replacement.

## CONSTRUCTION

The construction market is a primary user of The Solution services. Usually, we are employed as part of the snagging team during the final fix programme.

## PROPERTIES

The Solution service is used extensively by those engaged in property management to ensure high standards are maintained.

## MARINE

Boats, ships and pleasure craft have a wide variety of surfaces that are often expensive and difficult to source and replace. Our unique in situ repair service saves both time and money.

## HOSPITALITY

The Solution is fully geared to working with the operators and owners of the hospitality industry to cost-effectively rectify any damage on site.

# Glass

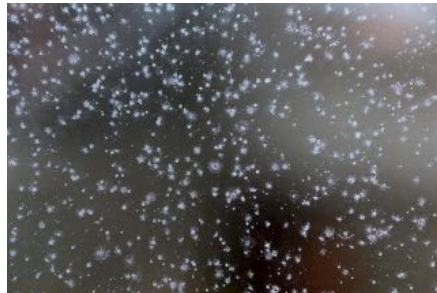

Scratch removal | Edge repairs | Cleaning | Coating

The Solution offers extensive expertise in effectively removing deep and superficial glass scratches.

Our technicians are specialized in removing weld and grind spatter which is burnt into the glass.

We proudly undertake both large scale scratch removal projects and minor restorations to best service the needs of our clients in the construction industry and home owners.

# Stainless Steel

Scratch removal | Cleaning | Coating

We offer services in deep cleaning, restoring, prereserving stainless steel extrusions and stainless steel clad panels.

We have stainless steel rust and scratch removal, surface prereservation refinishing programs and coatings for the cleaning, repairing, restoring, polishing of damaged stainless steel.

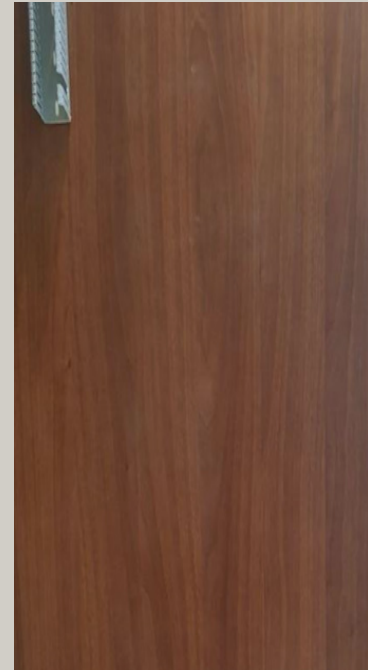

# Wood

## Scratch removal | Wood restoration

The Solution offers a variety of speciality wood renovation and restoration services.

Our success is firmly rooted in our dedication to provide unparalleled craftsmanship and quality service backed by our fully trained and well experienced technicians. We can carry out undetectable repairs and renovation work on damaged wood, returning the look and luster of the original of the original, avoiding costly replacement .

We combine traditional polishing methods with the latest technology to provide heat and water resistant finishes for all wood surfaces.

# Acrylic

## Scratch removal | Restoration

Designed to fix scratches, cracks, chips, burns, chemical damage, structural deficiencies or deep scratches in your bathtub or acrylic shower.

We use only the best materials and equipment in order to repair the affected area not only cosmetically but structurally as well.

After the repair is completed the area will look flawless and will show no signs the area was ever even damaged.

We repair on site which means less disruption to you and eliminates the risk of ancillary damage that can occur when items are removed and replacements installed.

Our repairs are superior because we source the best fillers and coatings from around the world.

This results in repairs that react in similar ways to the damaged items and therefore the repairs have longevity.

# We repair damaged items on site

Don't replace it! Restore it!

Every day thousands of damaged items are discarded and replaced, a decision that has an impact on the environment and ultimately affects us all.

Sanitaryware, floors, doors, kitchen units, worktops, wood, uPVC, ceramic tiles, marble, laminates, composites, metal and so much more can be restored with the minimum of fuss..

# Aluminium

## Scratch removal | Restoration

Scratches, dents and misplaced drill holes can seriously spoil the look of powder coated surfaces such as window frames, cladding and household appliances.

The Solution offers customers a comprehensive aluminium frame repair service that could save you hassle and money.

# Natural stone

Scratch removal | Stain removal | Restoration

The Solution uses precision tools and specialist resins and compounds to carefully polish out scratches in damaged surfaces with fantastic results, creating a finish that is vastly improved.

The colour matching expertise of the technician means that the colour and colour and pattern is replicated by eye to blend in with the existing surface.

We specialize in:

- Removal of stains
- Corrections of dullness
- Removal of scratches
- Repair of chipped marble
- Repair of etching
- Repair of cracks

# Ceramic

## Restoration
